THE GYMNASIUM

Prospectus

Mount Saint Mary's College was founded in 1808 by Rev. John Dubois, who afterward became Bishop of New York.

In 1830 it obtained its first charter from the legislature of the State of Maryland. The College is registered in full by the Regents of the University of the State of New York. It can be readily seen how great an advantage is connected with this registration, since the Degree of Bachelor of Arts, conferred by Mount Saint Mary's College, entitles its holder to enter at once upon university work.

Since its foundation there has been maintained in connection with the College an Ecclesiastical Seminary. Many of the students of this department defray their expenses, wholly or in part, by teaching in the College.

The institution is directed by an association of secular clergymen who, with several lay professors, compose its faculty.

Its material interests are controlled by a Board of Directors, of which the Archbishop of Baltimore is, *ex officio*, the President.

At the annual meeting of the Council of the College, held on Commencement Day, June 15, 1905, it was unanimously agreed to form in connection with the Council an Advisory Board, whose duty it will be to act with the Council upon all matters pertaining to College welfare except studies and discipline. It was the sense of the meeting that such a body would be of great benefit. In doing this the College gladly acknowledges the services of its lay alumni in the past, and invites a more intimate coöperation from them in the future.

The following gentlemen were elected to constitute this board:

A. V. D. Watterson, LL.D., Pittsburgh, Pa.

Richard M. Reilly, LL.D., Lancaster, Pa.

Edward J. Dunphy, LL.D., New York, N. Y.

John F. Cogan, A.M. Brooklyn, N. Y.

Francis P. Guilfoile, LL.D., Waterbury, Conn.

Location and Buildings

The College buildings are beautifully situated on high ground at the foot of the Maryland range of the Blue Ridge Mountains. The location is healthful and convenient of access. The celebrated College and Academy of St. Joseph and the Motherhouse of the Sisters of Charity, founded by Mother Seton, are in the immediate vicinity.

To most parents not the least of the many advantages offered by Mount Saint Mary's College is its quite seclusion and remoteness from the distractions and dangers of the city—its very situation making it an ideal home of study and moral development. The vicinity of the College is a pleasant summer resort.

The buildings are substantially constructed of stone. The class-rooms, study halls and dormitories are spacious, well ventilated and comfortable in both summer and winter. For illumination, acetylene gas is used throughout the buildings.

All the buildings are heated by steam and supplied with the most approved system of lavatories, bath and toilet rooms. In a word, the appointments of the buildings throughout meet all reasonable requirements for health and comfort.

Minim Department

In addition to the buildings described above, there is a separate department for small boys. These boys have their own study hall, class-rooms, dormitories and playground.

Recreation Grounds

The recreation grounds are extensive, including several terraces and a beautiful grove. Besides these features there is one of the finest athletic fields in the country. These grounds afford to the students every facility for baseball, football, running, tennis and other outdoor sports.

During recreation hours students are permitted to leave College bounds in the company of a prefect or tutor for walks through the country.

The Gymnasium

The Gymnasium is a handsome, substantial building, complete in all modern equipment. It contains under one roof, bowling alleys, a large billiard hall, a society hall, baths and a large swimming pool. This building is to the students at all times a source of the greatest pleasure and health.

In connection with the gymnasium there is given a full course of Physical Culture.

Government

The effective though unobtrusive supervision of the clergy, aided by the constant presence of the prefects, secures the peaceful reign of good order, industrious application to study and obedience to the laws of morality and social propriety. Gentle reproof, kindly correction, the instinct of honor and, above all, moral and religious influences, are generally found effective in the maintenance of College rules, discipline and study. All are instructed in the doctrines of the Catholic religion and trained to the practice of Christian morality. Vocations to the clerical state are frequent in the higher classes, and the piety and purity of youth are guarded and promoted in every possible way.

Domestic Department

The Domestic Department and Infirmary are under the direction of the Sisters of St. Francis, whose eminently successful work is ample guarantee that the material comforts of the students are at all times carefully consulted. In sickness and in health the students are treated with the greatest kindness and solicitude. The College authorities gratefully acknowledge the invaluable assistance of the Sisters, regarding them as a very important adjunct to the success of the College.

Conditions of Admission

All applicants for admission into the College must present satisfactory letters from their pastors, or other persons known to the authorities. Those coming from other colleges must also

present certificates from the superiors of these institutions, stating the studies made and vouching for the good conduct, industry and honorable dismissal of the applicant.

Students will be received at any time.

Examinations

The classes of new students are invariably determined by examinations at the time of entrance.

Monthly written examinations are held in those classes in which the nature of the work permits.

Public examinations take place half-yearly—in January and June. Besides the oral examinations at the end of the school year, there is also a general written examination, by which are determined the first honors of the College, consisting of a gold medal in each class.

Students attending the College for more than one year are promoted in course at the beginning of each scholastic year, if they have attained the required standard in class work, and in the public oral and final written examinations of the preceding year.

Reports of all the classes are read monthly in the presence of the Faculty and students, and are then sent to parents or guardians.

Courses of Studies

College Course

The College course, which must be followed by those who desire to take the degrees, embraces the Latin and Greek languages, French or German, Mental and Moral Philosophy, Logic, Mathematics, Chemistry, Natural Philosophy, Geology, Rhetoric and Literature, History, Christian Doctrine and Elocution.

The study of Chemistry, Astronomy and other sciences is facilitated by an excellent apparatus, a chemical laboratory and an extensive mineralogical collection.

In connection with this there has been inaugurated a special three years' course for the benefit of students preparing for a scientific career. Only those who have completed all the studies of the Freshman Class are permitted to enter this course.

INTERIOR OF GYMNASIUM

Students following this course will be required to take French and German for two years in place of Greek. At the end of the Sophomore year they may discontinue Latin.

All in the class will be required to follow the usual two years' course in Logic, Metaphysics and Ethics.

The successful completion of this course leads to the degree of A.B.

Special Announcement

Beginning with the Scholastic year 1914–1915, there will be introduced a year's course in General Biology, the aim of which will be to give the student a general idea of the science of life. This class will be taught five hours a week, four hours being devoted to laboratory and one to recitation. In connection with this course there will be a thorough discussion of the Theory of Evolution. It is hoped that this departure will be of assistance to the student body in general, but more especially to those who intend to pursue the study of medicine after their graduation.

The Preparatory or Academic Course

The Preparatory or Academic course, which is a preparation for the College course, is a classical High School. The curriculum of studies embraces Latin, Greek, English Grammar and Rhetoric, French, German or Spanish, Arithmetic and Algebra, History and Christain Doctrine. This course covers a period of four years. Only those who have successfully completed the regular Grammar course in a recognized school will be admitted to this department. A student who cannot produce a satisfactory certificate will be examined and listed accordingly.

Special classes will be formed for the benefit of those who are not sufficiently advanced to enter the Academic Department.

There is a Business Course in which the study of Latin and Greek is optional, and more attention is paid to commercial studies, such as Bookkeeping, Commercial Law, Mercantile Accounting and kindred branches.

All are required to follow the course of studies prescribed for the department into which they enter.

Degrees

The Degree of Bachelor of Arts is conferred on those students who have followed and completed the regular collegiate course, subject to the following conditions:

1. At least the last year of the course must have been made in this College.

2. Each candidate, both in the January and June examinations in all the classes of the Senior Course must have attained the standard required by the rules for graduation.

3. He must prepare a literary essay or discourse satisfactory to the Faculty, and deliver the same in public on Commencement Day, if requested to do so.

The Degree of Master of Arts is conferred on those students who, for at least two years after taking the degree of A.B., have devoted themselves to additional studies, or to some literary pursuit or learned profession, and who make timely application for the degree.

College Sessions

The sessions 1914–1915 of the College begin Friday, September 11, 8:30 a. m., and the first day of February, continuing five months each.

The Christmas recess begins December 21, 1914 and ends on the evening of January 4, 1915. The Easter recess begins on Wednesday of Holy Week and ends on the evening of Thursday after Easter Sunday. If students leave College during recess they must return promptly on the appointed day, No student will be permitted, except for reasons of absolute necessity, to absent himself from College at any other time during the school year while classes are in progress.

Students returning late in September, or failing to report promptly after the Christmas or Easter recess, forfeit their right to compete for prizes and honors.

It may be well in connection with this to call the attention of parents and guardians to the necessity of insisting that those under their charge be trained in habits of promptness and punctuality. Students are required to return on the day appointed. Violation of this rule, unless accompanied by a *written* explanation satisfactory to the College authorities, may subject the student to suspension or dismissal. The College, therefore, asks from parents and guardians a most cordial coöperation in this and all other matters pertaining to College discipline.

Recreation Days

Besides the regular weekly holiday—Thursday—the Sundays and Holy Days of Obligation during the year and the

Christmas and Easter holidays, the following are the only days on which classes are regularly suspended:

The day following the annual Spiritual Retreat at the end of October.

The day following Thanksgiving Day.

The day following the close of the mid-year examinations.

Washington's Birthday.

Saint Patrick's Day.

Decoration Day.

Private Rooms

The completion of the magnificent new Seminary building has made available many more private rooms. However, as the demand for the private room is ever on the increase, the College finds it necessary to say that no room for the coming year will be reserved unless proper application is made before the first day of August. After that date a room will be considered vacant and will be given to the first applicant provided his character, class standing and application so warrant. In case of several applications coming at the same time the preference will be given in the order of seniority of classes.

Bills are rendered twice a year, in September and February, and must be paid *in advance.* When bills are not paid on presentation, the College reserves to itself the privilege of issuing a *draft* for the amount, and the non-acceptance of such draft will be considered a notice of the student's withdrawal, unless a satisfactory explanation is made.

Every student from outside the United States must have a guardian or representative in this vicinity, who shall be responsible for the regular payment of his expenses, and with whom the College may readily correspond whenever necessary.

No deduction will be made in case of withdrawal during a session, except for cause satisfactory to the College authorities.

Students may enter at any time, and will be charged only from the first of the month in which they enter.

Every student should have on entering, at least two suits of heavy and two suits of light outer clothing, three suits each of heavy, medium and light under-clothing, a set of table napkins, a napkin ring and one-half dozen towels.

In regard to pocket money, the College would suggest to parents and guardians the wisdom of economy. The College will not advance money for this purpose, preferring to leave the matter entirely and directly between parents and guardians and the students. In future, therefore, this item will not enter into the bills rendered by the College.

Books, stationery and clothing will be furnished at current prices by the College, at the request of parents, provided a deposit to pay the probable cost is made *in advance. Positively* no money or other articles will be furnished to any student by the Treasurer *unless such deposit has been made in advance.*

Parents and guardians must see the reasonableness of this rule and should, therefore, either supply their boys with all necessary articles of clothing, etc., or deposit *in advance* with the College Treasurer funds sufficient to cover cost of same.

When a student is about to withdraw from College, timely

notice must be given, his account settled and traveling expenses provided for.

Although the College is accessible by rail by way of Frederick, Hanover, Gettysburg, Hagerstown or Thurmont, the most convenient route is by way of Union Station, Baltimore, and thence over the Western Maryland and Emmitsburg railroads.

The annual vacation begins on June 17, 1914 (Commencement Day). The College reopens Friday, September 11, with Mass at 8:30 A. M. Students are required to be present on the evening preceding, September 10. The retreat for members of the Ecclesiastical Seminary begins Thursday, September 3, at 7 P. M. All students in the Seminary must be present at noontime on that day.

The Students of Mount St. Mary's College

THE MOUNTAINEER is the recognized organ of the students and Alumni of Mount St. Mary's College. Its object is literary improvement, the chronicling of interesting events at the College, and the cementing in a more vital bond of fellowship the members of the Alumni, to whom it is invaluable.

Published every month during the school term in the very centre from which all College news emanates, and at the point toward which all Alumni gossip is directed, it is a safe and reliable medium of College information and the only exact chronicler of Alumni news.

Being under the direction of the students, it must rely for its support upon the friends of the College. The aid of the Alumni is therefore respectfully requested and will be greatly appreciated.

St. Joseph's College and Academy for Young Ladies

Emmitsburg, Maryland

This beautiful and commodious institution, fostered in the same nursery as Mount St. Mary's, has always held the highest reputation for the refined and virtuous education given to its pupils. It is situated in a lovely valley at the foot of the Blue Ridge, about two miles from the College, and about one-half mile from Emmitsburg.

The location, as well as the high standing of these two institutions, offers peculiar advantages to parents who have both sons and daughters to be educated, for both may be visited at the same time, and the brothers and sisters have the opportunity of seeing one another every week during the course of the academic year.
